

Giraffe
dustless sander

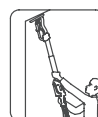

Intex Giraffe® Drywall Dustless Power Sander

The Intex Giraffe® Drywall Sander is specially designed for the most efficient surface finishing of drywall plaster walls & ceilings, painting & concreting for both new construction and renovation work. This sander teamed with Intex Starmix Dust Extractor & the Intex Jost Useitabrasive system is the proven choice for professional finishers all around the Globe.

BENEFITS AT A GLANCE:

- **24 Months Warranty**
- Unique Design eliminates scratches
- Multi-position fully flexible sanding head
- Variable Speed 650-1600RPM
- 550W Soft start motor
- Heavy Duty 4.3m vacuum hose included

Multi directional fully flexible Sanding Head

The AG700 has a unique multi-position fully flexible sanding head, with preset start position for ceilings & walls, eliminating surface gouging and providing maximum sanding efficiency.

How it works:

There are 2 positions for the sanding head:

Position A is for Ceilings only

Position B is for Walls & also for storage

Dust Extractors

Intex Starmix® Dust Extractor Wet/Dry

MADE IN GERMANY

Whether it's for hard use in the workshop or on the building site, the Intex Starmix AV Series offers you tried-and-trusted technology and quality in a design.

The AV Series combines high performance with clear, modern housing design and improved ergonomics. The compact shape makes it easier to handle & move, while the low centre of gravity makes the vacuum cleaner very stable. Despite its small dimensions, the capacity remains unchanged.
